

FY21

PROGRAM REPORT CARD

Texas Targeted Opioid Response

Program Overview

The Texas Targeted Opioid Response (TTOR) program aims to address the opioid crisis with strategies spanning the behavioral health continuum of care, funding prevention, treatment and recovery services, as well as integrated projects. In fiscal year 2021, the TTOR program was supported by four Substance Abuse and Mental Health Services Administration grants: State Opioid Response 2018, State Opioid Response 2020, Strategic Prevention Framework for Prescription Drugs, and First Responders – Comprehensive Addiction and Recovery Act. TTOR also oversees or works in collaboration with programs funded by the Substance Abuse Prevention and Treatment Block Grant and general revenue.

TEXAS-SIZED ACHIEVEMENTS

1,796
lives saved

72,084
Naloxone kits distributed

2,247 participants received direct recovery support

228 people were admitted to MAT through the help of their recovery coach

70.7% people receiving state-funded treatment for an opioid use disorder received medication-assisted treatment (MAT)

49.4% people in MAT and office-based opioid treatment had a length of stay greater than one year

420 people entered MAT through non-traditional settings from TTOR integrated programs

25,728,764 times an Opioid Awareness Campaign ad was seen by Texans

*Includes 37 contracts funded in whole or in part by Substance Abuse Prevention and Treatment Block Grant or general revenue.
